1. What does flow_from_directory give you on the ImageDataGenerator?   **1 / 1 point**

Try again

◯ The ability to easily load images for training

◯ The ability to pick the size of training images

◯ The ability to automatically label images based on their directory name

⦿ All of the above

✓ **Correct**

That's right! The flow_from_directory method takes the path to a directory & generates batches of augmented data.
